WHAT IS ATTACK CANCER?

Rooted in servant leadership, Attack Cancer is a fun and interactive way for athletes to make an impact both on and off the field. Athletes of all sports from around the country are pledging their performance this season to assist the HEADstrong Foundation and families affected by cancer.

WHY HEADSTRONG?

The HEADstrong Foundation was founded by Nick Colleluori, a Division I student-athlete when he was diagnosed with non-Hodgkin's Lymphoma. From his hospital bed he created the foundation to raise funds by empowering athletes to support his mission. After a 14-month battle, he passed away after making his family promise that others following in his footsteps would benefit from his life.
